

➤ PAPER BAG MAKING COMBO MACHINES

➤ 42" Paper bag Creasing machine

- We are using high-speed steel roller and cutters Creasing & Perforation up to **400 GSM**
- Pull up and pull out rubber rollers, Machine weight **200Kgs**, we are using single, phase motor **0.5 Hp**
- We are using Male & Female type creasing, Moving wheels also

➤ Paper bag Side Pasting and Bottom pasting Machine

- Easily removable rollers & Easy to wash, Low maintenances
- Use any GSM Paper and Boards, It also suitable for strip gum,
- We are using fully stainless steel materials
- Minimum size 3" Bag & Maximum size 20" bag
- Variable speed system, we are using Low voltage single phase motor **0.5 Hp**

➤ "V" Creasing, Roll Pressing, Eyelet pressing machine

- Minimum size 3" Bag & Maximum size 20" bag
- "V" type creasing and cutting on the Bag Bottom
- Roll Pressing machine for pressing the Bag after the Pasting Side and Bottom
- Eyelet pressing for pressing the Eyelet Button on Bag top side, this Eyelet save the Handle from broken

PAPER BAG MAKING COMBO MACHINES

- ❖ **42” Creasing machine (Male & Female Type)**
- ❖ **Paper Bag Pasting Machine (Side & Bottom pasting)**
- ❖ **Roll Pressing Machine (After the Pasting)**
- ❖ **“V” Creasing & Cutting machine with Air Compressor**
- ❖ **Eyelet Pressing Machine**
